

Michelle Ray from Walkabout Seminars International was our Keynote speaker and workshop presenter at the Human Resource Management Conference at the Lake Hume Resort in Albury, Australia on October 28, 2003. This was attended by over 100 delegates and aimed at Human Resource Professionals in the region.

As conference coordinator I can confidently say that Michelle added a new dimension to the day she was an integral part of meeting our Conference aim to motivate, inform and inspire our delegates. Michelle certainly delivers her presentations with all three of these aspects in one. We continue to receive many positive complements of Michelle's Keynote sessions and workshops.

We were very impressed with the feedback from delegates and the feedback forms they completed about Michelle's workshop confirmed that Michelle gets her message across in a positive, unique and humorous way.

Everyone in the room was engaged and the number of people who commented on the quality of her delivery was excellent. Her use of humor to get her point across is masterful. We would have no hesitation in recommending her to anyone.

I am more than happy to discuss this further, please don't hesitate to contact me on the below details.
